ROCKIN' THE FARM AND FOREST

Inspiring Children to Appreciate the Wonders of Nature

"One of the most memorable performances of the Stagecoach Festival..." - **USA Today**

Farmer Jason is the creation of Americana music singer Jason Ringenberg from the legendary rock band Jason and the Scorchers. Through his hybrid musical mix of folk, rock 'n' roll, and country, Farmer Jason teaches children about the joys of rural life and the wonders of our natural world. He has recorded several records and dvds, and created an Emmy Award winning educational video program about nature called It's a Farmer Jason!. This program, produced by Nashville Public Television, airs on several PBS stations around the USA. In concert, his critically acclaimed one man show has been performed over 4000 times in 15 countries around the world.

"Farmer Jason absolutely brought the house down. 800 K-1 students in one place responding with singing, dancing, and laughter was an "out-of-the-park-and-over-the-wall" experience. The engagement was electric from the beginning. Jason's warm and inviting personality as well his musical enthusiasm pulled them right in." - **The Hiddenite Center for the Arts, NC**

Christmas on the Farm with Farmer Jason

This concert features songs from Farmer Jason's award winning Christmas record as well as other Holiday classics. He also tells interesting stories about the origins of the songs and traditions. Did you know that the songwriter of "Jingle Bells" also wrote some of the Confederacy's most stirring anthems? Or that "Away in a Manger" was once credited to Martin Luther because the sheet music publishers thought it would sell more copies if credited that way? This concert is meant for family audiences ages 2 - 90.

From Farm to Forest Educational Concert

This concert offering has been developed for children aged 2-6 and it is usually performed in pre-schools, libraries, and elementary schools. It features songs and stories about farm animals and animals in the forest. Dancing and physical interaction are very prominent in this concert program. The songs are full of repetition and rhyme, geared for younger minds.

Nature Jams Educational Concert

This concert is for children aged 7-10. It is usually performed for grades 2-4. In this highly interactive concert Farmer Jason sings complex songs about the "great outdoors" and tells fun stories about nature. Did you know that giant grizzly bears are afraid of a little skunk no bigger than a house cat?
