

Zak Morgan's Performance and Educational Offerings

GRAMMY nominee Zak Morgan's unique brand of children's music delivers songs and poems with wit and charm that inspire and tickle the funny bones of children and adults alike. When he is not writing and recording, Zak performs family concerts and educational concerts throughout the country. His live performances are always filled with laughter and warmth as he encourages children to READ, IMAGINE and BELIEVE in themselves. Zak's music is focused on families with children 3 years to 12 years and preschool through older elementary students.

Zak's educational concerts offer two study guides with activities for both music education and arts integration with other subjects. In addition, teachers can access thirteen interactive lessons for classroom use at a variety of grade levels.

Zak Morgan's NEW! Arts In Education concert *The Science of Sound* uses music, humor, and Morgan's trademark wordplay in an interactive exploration of the thrill of scientific investigation and discovery (available Fall, 2019).

Creative Writing Residency (three to five days) - Like his show, Zak Morgan's creative writing residencies use music and storytelling to exercise the imagination and encourage reading. Over the course of four sessions, students learn the basic elements of a good story, create their own story, turn their story into a song, and record their very own music. When time allows, Zak will perform a concert of his music, including the students performing their new work during the show.
